- ◆ Does your horse express difficult behaviour on the ground or under saddle?
- ◆ Or would you just like a calm, content horse who is light and responsive to ride and safe to handle?

Sally trained for her BHS exams with The Yorkshire Riding Centre and in more recent years has undertaken extensive training in the methods of Dr Andrew Mclean and his wife, Manuela, of the Australian Equine Behaviour Centre (www.aebc.com.au).

*Sally is one of few trainers in the UK who have trained in this method and is keen to share her experience and promote their **ethical, sustainable training system**, which combines classical training with the scientific understanding of how horses learn (Equine Learning Theory).*
